

Fundamentals of Wastewater Collection Systems Class *(five day class)*

The Fundamentals of Wastewater Collection Systems Class is designed for new collection system operators, persons planning to take a collection exam or anyone wishing to improve their knowledge of collection systems. This class will cover an array of basic collection topics. In addition to training from experienced instructors, students will be provided information that will be very useful in preparing for the certification exam. This class will begin each day at 8:30 am and end at 4:00 pm. Successful completion of this course can substitute for three months work experience and six hours continuing education credit toward any collection system operator's certificate. For additional information contact Dan Martin at DanMartin@taud.org or (931)312-9405 or Brent Ogles at BrentOgles@taud.org or (615)896-9022.
