

### **Cross Connection Renewal Workshop** *(one day class)*

If you currently hold a certificate for “Testing and Evaluation of Backflow Prevention Assemblies” and need to renew, the Renewal Workshop is what you need. Successful completion of this workshop will renew your cross-connection certificate for another three years. It will also provide six hours of continuing education for water, wastewater, distribution or collection certificates. Classes begin at 8:30 am and end at 4:00 pm. You must successfully demonstrate that you can test a reduced pressure principle assembly and a double check valve assembly in accordance with recognized TN Department of Environment and Conservation procedures without written or verbal assistance. To view the written procedures or to see them performed on video, visit the Cross-Connection section of our web site at [www.taud.org](http://www.taud.org). For additional information contact Greg Baker at [GregBaker@taud.org](mailto:GregBaker@taud.org) or (731)225-5240, or Brent Ogles at [BrentOgles@taud.org](mailto:BrentOgles@taud.org) or (615)896-9022.
