

NIMS Workshop *(3 hour workshop)*

The NIMS (*National Incident Management System*) Workshop is a FEMA certified workshop to become NIMS-700 and IS-100 certified. This workshop will be held after region meetings to minimize your travel costs. The class will also provide three hours of continuing education for water, wastewater, distribution or collection certificates. Workshop will begin immediately after the region meeting at 12:30 pm and will end after the last certification test at 3:30 pm. For additional information, contact Greg Baker at GregBaker@taud.org or (731)225-5240.
