

**Safe Drinking Water Act Update for Water Treatment Plant Operators** (*one day class*)

With many changes to existing rules, and new rules added, this workshop is designed to help operators of water treatment plants to know what actions are required during 2010 to comply with these rules.

- Groundwater Rule
- LT1 and LT2
- Monitoring and Sampling Requirements
- Disinfection Byproducts Control at the Treatment Plant
- Lead and Copper Control at the Treatment Plant
- Chemical Security
- Bacteriological Monitoring and Sampling
- Sanitary Surveys for Treatment Plants
- Total Coliform Rule
- EPA Asset Management Software for Treatment Plants

This class covers those portions of the rules which pertain strictly to water treatment. Class begins at 8:30 am and ends at 4:00 pm. Successful completion of this class will provide six hours of continuing education credit toward any Water Treatment certificate. An additional 6 hours of continuing education credit for water treatment by attending the Safe Drinking Water Act Update for Distribution System and Water Treatment Plant Operators.
