

TOSHA Basic Safety Class *(one day class)*

The TOSHA Basic Safety Class is designed to educate participants on the most commonly cited safety hazards and how to prevent them. TOSHA staff members will conduct the class and advise attendees how to reduce risks and save money. Students will discover ways their company can maintain compliance and eliminate situations leading to expensive citations and costly worker's compensation claims. It is a one day class that begins at 8:30 am and ends at 4:30 pm. The class will provide six hours of continuing education credit toward any water, wastewater, distribution or collection certificate. For additional information contact Brent Ogles at BrentOgles@taud.org or (615) 896-9022.
