

Bacteriological Sampling, Monitoring and Reporting Class (one day class)

The Bacteriological Sampling, Monitoring and Reporting Class is for anyone interested in learning about basic water bacteriology as it relates to the water treatment and the distribution system. You will learn basics of water bacteriology, proper sampling techniques. It will cover lab certification requirements and lab quality assurance requirements. You will also learn about bacteriological processes and how they impact the water in your distribution system. It is a one day class and will provide six hours of continuing education credit for any water treatment or distribution certificate. Class starts at 8:30 am and ends at 4:00 pm each day. For additional information, contact Doug Cherry at DougCherry@taud.org or (931)267-2710 or Brent Ogles at BrentOgles@taud.org or (615)896-9022.

There are no prerequisites for this course.
