

Certification Cram Session for Distribution System Operators (two and one-half day class)

The Certification Cram Session for Distribution System Operators is for anyone interested in preparing for and increasing their chances of passing any Distribution System Exam. You will learn:

- How to solve math problems found on the certification exam;
- How to use the formula book provided to you for use during the exam;
- How to “break-down” and understand questions;
- What to study and how to study.

Attendees will receive a digital copy of *Cram Session Study Guide for Distribution System Operators* and a copy of the *Distribution System Mathematical Formulas* booklet. It is a two and a half day class and can be used for up to six hours of continuing education credit for any Distribution System license. Class starts at 1:00 pm and ends at 4:30 pm on the first day. Classes start at 8:30 am and ends at 4:30 pm on the second and third day. For additional information, contact John Shadwick at JohnShadwick@taud.org or (615)804-4069 or Brent Ogles at BrentOgles@taud.org or (615)896-9022. There are no prerequisites for this course.
