

Memphis Light, Gas & Water
4949 Raleigh Lagrange Rd, Memphis TN

During the MLGW Host Day at MLGW Training Facility on September 21st, TN Association of Utility Districts will be providing a 3-hour class “Cross Connection Renewal – Classroom Session” designed to fulfill the classroom portion of the State Approved Cross Connection Renewal Class. (The practice area will be available all day on the 21st for practicing for the practical test).

Class Times: 8:30am-11:30am
1:00pm-4:00pm

The class will be offered from 8:30am until 11:30am and again from 1:00pm until 4:00pm.

Fill out the registration form and check what applies to you at the top.

To take the Cross Connection Control Renewal test, fill out the class registration and pay the test fee \$100 for TAUD members \$150 non-member.

You can also register and make payment online by visiting our website at www.taud.org click on “Training” then “List View” and scroll to the September 21 classes.

If you have questions, please contact Ali Hite at 615-900-1000 or Brent Ogles at 615-900-1011

Certified Backflow device testers

Anyone who is a certified backflow tester and wishes to renew their certification can attend one of these classes and return Monday (September 24) at a scheduled time, and complete the practical test of a Reduced Pressure and a Double Check Backflow preventer (No other activities are required on the test day other than completing the practical test).

Test Fee for September 24
 \$100 TAUD member
 \$150 non-member

Successful completion of this workshop will renew your backflow/cross-connection certificate for three years. Certificates for Backflow Preventer Testers must be renewed every three years. If you hold this certificate, it is your responsibility to attend a renewal class before the expiration date on the certificate. Not renewing by the expiration date may jeopardize the acceptance of your test reports by the Water Provider.

Certified Operators

Anyone who is a certified water, wastewater, distribution or collection system operator and wishes to receive 3 hours of continuing education credit toward their certificate can attend this class.

GET 3 hrs CE for CS DS WT or WW

What topics will be covered?

- Testing backflow prevention devices
- Ordinances and policies on cross connection
- Installation requirements
- The paperwork trail
- State requirements

Who will conduct the training?

The TAUD staff will conduct the training at Memphis Light, Gas & Water Training Facility, located at 4949 Raleigh-LaGrange Rd. in Memphis.
