

Bacteriological Sampling, Monitoring & Reporting Class *(one day class)*

The Bacteriological Sampling, Monitoring and Reporting Class is for anyone interested in learning about basic water bacteriology as it relates to the water treatment and the distribution system. You will learn basics of water bacteriology and proper sampling techniques. The class will cover lab certification requirements and lab quality assurance requirements. You will also learn about bacteriological processes and how they impact the water in your distribution system. It is a one day class and will provide six hours of continuing education credit for any water treatment or distribution certificate.

Cost: \$140 TAUD Members
\$280 Non-Members
