

# Water Treatment Webinar Block B

## Webinar

CE: 3hrs WT

OE: None

TAUD is offering a new continuing education opportunity for water treatment operators. With social distancing becoming the norm, we developed a 3-hour or 6-hour webinar program for operators. Each webinar will be a different topic that will begin at 1 pm central on the date listed and last until 2 pm central. An operator may choose to complete one Block and receive 3 CE hours or both Blocks A&B to receive 6 CE hours. The operator must attend every presentation in a block and answer the poll questions to receive credit. The presentations will be conducted through Zoom so all an attendee needs to attend this webinar is a smart device including computer, tablet or phone with internet connection.

### Block B

Ultraviolet-Advanced Oxidation Process: The attendee will gain the knowledge of UV-AOP treatment process, chemistry and application.

Emergency and Pandemic Response: Division of Drinking Water representative will conduct training on how to properly prepare and respond to emergencies and pandemics.

Log Removal Value for Membrane plants: The attendee will gain the knowledge of different operational modes for membrane plants and how those modes affect the log removal value that a membrane plant can achieve.

Instructor(s): J.W. Griffin
